Please God with open arms and palms toward the sky I
come to you for your love and guidance

I come to you with an open heart and with an open mind
for your love and for your guidance

As a child weak and meek with little understanding of this
world, I come to you for your love and guidance

I look up to you for the times old and new for I beg for your
love and for your guidance

I open my soul to you my soul is raw I need to be filled with
your love and your guidance

I know so little there is nothing that I can say without your
love and your guidance

Such a small girl with no wisdom at all I come to you Lord
for your love and your guidance

Pray to you God all the days of my life desperate to feel
your love and your guidance

Sing for the angels and sway to the tunes wanting only to
feel your love and your guidance

Breathing your air, I come to you here to beg of you Lord
for your love and your guidance

Amen

Our Prayer

God, We ask that your spirit touch anyone who reads these messages inspired by you. That they may be free and you may bless them with your peace and compassion all the days of their lives. We love you God. Amen

GODS' MESSAGE (May 18, 2002)

That you will say to the ones in the start of the book. That it's up to them to read and interpret what they need. That this was not of your say, it is only my way.

That you can say that you write and it matters not what they think. They can call you a nut and you can hear it if you like. But they don't judge you. And that this is the way that it matters not what they say. There will be others who will see that this message is from me.

That you will see me and that you are to be free
That the published writing will free you
And that you will not have to defend
If any one tries to make you defend

That the writing at the beginning is what you will tell them it is up to them to interpret... that they will know intuitively how to read it and what to take.

Just say for your sake that you know you're not fake and that you are just feeling what the Lord pushed you to. That the feeling has moved you, the spirit is strong, and that the spirit when it moves you shall never you go wrong.

GODS' MESSAGE (January 20, 2002)

You are to continue to the will of your true spirit and soul.

You are to be aided in all the days of your life.

You will be rewarded, and you are rewarded.

It is now your time.

And don't cry my child, this is the way of the world and the universe.

If you are sincere than my love will fill you, and take away the nausea, that feeling of bile and hate.

That you will experience a more peaceful love.

And you have been tested and you have passed this.

I am not a punishing GOD I forgive and I forgive you and I love you.

Your unions will be blessed.

You are a true gift and breathe in the light of a spirit

It is not of the world that you understand.

You are an honest humble soul, and will be with gifts in abundance.

And love others in your light to show them.

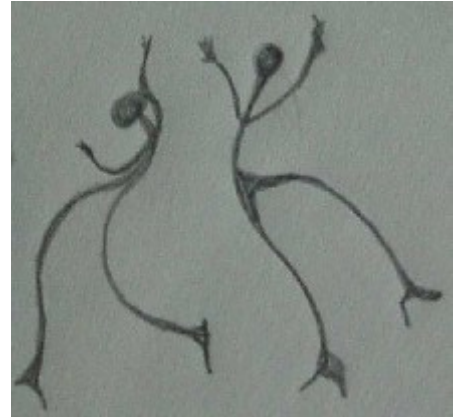

Amen

The Truth Be Told

*God says and the truth be told
And the truth be written
We gather around the spirits' feet
And listen to the tones
And the tones sing
And our hearts ring
And the way we love
Is that of the dove
And when he reigns
When God sustains
Who for our love again
There are no pains
And the truth be told
That if we are bold
That humility leaves
And our pain will not ease
So be soft and sweet
And keep fresh your flesh
Because if you listen
You surely glisten
So God is rhyming
If you have good timing
Take the steps to rest
And the steps to truth
God says and the truth be told*

GODS' MESSAGE (January 26, 2002)

The decision has been made
Tell the children to play
Tell the angels to rejoice
And there will be dancing in heaven
And there is light in heaven
And for all that follow and obey there is peace in heaven
And this is the test of time
And the pathways will light
And the door will open
And the door will open and gently a shove
And the super prize will be peace
And the splendid will be known
And I will covet you
And protect you
And the pain is free
And the heart will rest if just as the purity
And listen; take the opportunities before you
And move through this
Move through the turmoil
And you will see the fields of lilies
And the waters will be placid
And the ride smooth
And there are doves singing
And the air is clear

And there are mighty ones
And there are peaceful ones
And there will be lulls
And there will be highs
The heights of you are UN surmountable
The Lord in heaven
And the angels in their splendor
They watch you
And that is how we are
Watching you
And the light will shine
And it is shining
And there are good things
And there is that which you don't understand
And you must have faith
And turns that as I am righting this for you
And that you will be able to live all the days of your lives
In peace and with guidance
Amen

Our prayer to God

God, We come to you here tonight
We have to stand before you to ask for your
attention
We love you and thank you

We thank you for all of the blessings that
you give to us
Not just today but always
And the true blessings that you have given
our loved ones and friends
And we thank you for all of the guidance
and direction given us in the last weeks
And we thank you for our healing
And we thank you for our pain
And we know that you will continue with us
We are sure
And we have faith
And GOD please keep using us as tools
And use us as the tunnel for your light
Amen

GODS' MESSAGE (January 28, 2002)

To become a generation of love
And of God
And that they may dream
And they may follow their hearts
And forfeit the anger of their parents
And they will have a wonderful reign

And I will reign
And I love you
Amen

Slain in the Spirit

*It's the kind of tired that we all long for
The kind of tired we all yawn for*

*Laying here with my eyes closed
There be no time for questions posed*

*The spirit strong and the body weak
We bow our heads in feeling meek*

*It's the kind of tired that we all long for
The kind of tired we've felt before*

*Now it's time the body heals
And sleeps while pain no one feels*

*Give thanks so much, to our God
Not ever having an others' prod*

*It's the kind of tired that we all long for
The kind of tired all men adore*

*We pray and leave as souls they rise
To the heavens door, the angels' prize*

*Scents of flowers, the airs they waft
Tickles inside, cherubs laughed*

It's the kind of tired that we all long for

The kind of tired that shuts the door

*Stretching and reaching to the sun
Knowing that our hearts will be as one*

*As we drift off in blissful wonder
Our hearts stay free from the thunder*

*It's the kind of tired that we all long for
The kind of tired all want some more*

Children in Flannel Walls

*As the dusk to night falls
 Children in flannel walls
 We hide under blankets
 Silent in hunger; as it calls
 We clutch feather pillows, anguish
 flushes within
 Knowingly our idols are committing a
 sin
 Our cheeks roused with fever of anger
 and fear
 We hold blankets over, close by, and
 near
 The cheeks are flushed. The sadness
 abounds*

*God looks, ears twitch from the sounds
 These are the flannels no man shall unclean
 To make children bleed, their hearts are unseen
 The children we hunger for smiles shining bright
 Yet we see sorrow when the dusk falls to night
 Hide me no more give me no pain
 Release me to freedom and take off this chain
 I rise up to God's glory to shed of my fear
 That I will know wonder, peace almost near
 That God, yes he loves me a child of his reign*

*Blankets protect me from feeling my pain
Can't take away what's happened, can't make men lame
But I won't keep on fighting with weapons of blame
He loves me so dearly my God, yes he does
Pain in my heart severe, mine it was
I act out with venom and bile and tears
Hurting myself yes the children, our fears
Cause righting the wrongs of the men we adore
Is easier than go letting and closing the door
Yes God still he loves us, we're children of God
Pity, anguish, and hunger, feeling we're odd
Feeling there's nowhere to go for reprieve
While man holds our hand for himself to relieve
Don't give up hope child there are those who survive
Someday as I have, given thanks you're alive
You will live in wonderment as I too have done
And I found my God loving me just one on one
Giggles are saved not for those who hate
We laugh as adults having refused awful fate
Look into the mirror at your reflect you muse
You see what comes back; your eyes won't refuse
See sweetness and leave yes the perils of life
So growth can abound abandoning strife
Run with your might as angels carry you away
Far-reaching from peril close to God you will stay
Take not the drugs; don't partake of the wine*

*For that feeling it gives you will come in time
And be tired with freedom from the pain you ignore
Your angels carried you; continue forever more
So children keep laughing and loving so pure
For you are our futures for flannels demure
Your innocence awaits us to teach us our ways
That we are to nurture, you shining with rays
That the sun will come light you, God yes he calls
As the dusk to night falls
Children in flannel walls*

Peace be with all the abused children
tonight
Amen

Carousel through Life

*As we carousel through life, we come back to this
We pass through lit doorways a shine, so exists*

*Miraculous with wonder, curious our souls
Tiptoe we must, to avoid empty holes*

*We to travel above, canyons we soar
Watching amazed at what we're here for*

*We question the power and question what for
Relaxed as we listen to one we adore*

*So then it goes that we move them to tears
For heart felt intentions releasing all fears*

*So give me your freedom for tedious work
Never going unnoticed be it a quirk*

*The chores that you do here, make heaven sing
Inspired are you with the joy that you bring*

*Inspire the others don't hesitate
Those who get it, will surely partake*

*In splendor of spirit hearts won't ache
Sincere in prayer for everyone's sake*

*To all that will listen the spirit is strong
Walk with the adored one you won't go wrong*

*So praise be the kingdom of heaven created earth
Holy is the spirit that gave you your birth*

*Keep near your pure nature; regret not the past
Peace be your mission spread it at last*

*My work with my children is safe now I know
Eyes that read writings will most likely grow.*

*As we carousel through amazed with love true
That flowers they grow with such colorful hue*

*Plentiful are we, we lose sight of this
That our core is for loving for absolute bliss*

*Cry out and act out for loves true intent
Begging forgiveness experiencing lent*

*If we dance with the angels the carousel will turn
Our freedom has changed us we have yet to learn*

*Our habits can haunt us in mysterious ways
Can sacrifice freedom to always give praise*

*Dancing with angels will soon make much sense
Your prayers they are answered don't be so tense*

*Relax with angels they dance for your stead
Tiptoe on clouds nothing to dread*

*Find peace in your own heart in faces of others
Carousels with children waving at mothers*

*Looking for goodness is mission itself
Abandoning freedom put on the shelf*

*True nature of kindness will rise to the top
Pray Heavenly Father please never stop.*

Tears

*Tears as they fall the sadness and dismay
Shattered glass under feet just in the way
Hearts they break, mending no more
Shattered glass lay on the floor
Hearts they cry, for lovers longing
Trying fiercely to right the wronging
Day break it comes, tears watch it fall
Feeling so different, from them all
We pray for strength in beds we lie
Hoping that no one arrives to pry
We watch loved ones with a heavy heart
Walls we watch crumble falling apart
Clearing the pain out as cobwebs they feel
Perception is one thing not always real
So I beg you my Angels come softly to me
Help me through this, of you this I plea
So in thee I find me so helpless in deed
Avoiding the breakage not wanting to bleed
Don't want to forsake you in particular ways
Attachment abounds me I'm caught in a daze
Your soul is so loving to me a clear sign
The attention you give me most of the time
Tears yes they soften as God comforts me
Comes to my bedside for my eyes to see*

*The glass shatters gone now, barefoot I stride
Keeping you near me, I mostly take pride
No matter what happens I know in my heart
Trying to leave God won't let us part*

Playgrounds of Clay

Ring around the rosy
Children they sang
One sweet child's cozy
Resounding bells rang

Skipping and playing
They do it so well
The children see heaven
It's scorning hell

With loved ones to look to
In crisis they pine
No peace in these times
They get out of line

She rushes to play
With steel bars a mass

Who suffers, it's crass

The scorn no discretion
Choosing all who peek
Feel his erection
He touches her cheek

Through keyholes eyes gazing
Won't give up hope
When he, she feels touch her
Can barely she cope

She gazes at moms face
Pleading for a shroud
Praying for God's grace
Silence so loud

There is still much wonder
How to bid this adieu
Above her and under
She knows not what to do

The Gods burning light
Melts the fears of the years
They lift up their heads
Revealing their tears

It is now that I deplore you
For hurting me bad
Others were watching
No one was mad

You let them do this
Hurt me in plain sight
I loathe you with vengeance
For not hearing my plight

I pray to my God
Wait only for his time
To come into me
Removing this crime

It's with this we wonder
If steel bars are fake
The playground floor frozen
Ice melts in the lake

Play ring around the rosy
Pretend nothing's wrong
When you have your children

GODS' MESSAGE (February 17, 2002 #1)

It comes, truth through the ages
Writings haven't been many
Choices for writers were abandoned many times
Now this is the union for writers in time
We need new prayers
And the old just won't do
The world as it changes we need insight for rest
We will rest
And the insight inside it warrants to take now
We chase the gold ones
And we speculate much, coast to coast
Our children live in anger
The parents live in doubt
Lovers loving lovers
And we shout and fuss about
So what shall we do in heaven
To change these episodes
Can't change what has happened
Can't make men lame
Must find the true meaning
And stop editing.
This time to the world I tell you
The cropping of photographs

Our world we live in edits all that can express
Children killing children
I scorn this. Why are we so perplexed?
What age has taken us to?
And we still move through in apathy
Slumped shoulders
More hate than before
It is not a growing nation
Nor a growing universe
It is protective nature
Not Buddha nature
It is time to reverse this
No talk of Jesus. Do as he
Talk is cheap that you say today
Your words have been selected
I God come to you
All of these people now it's time to listen to me God
And my message are simply put we will sate you
By being with glowers
We attract your short imagination
We in heaven and clouds soar through the muddle of the papers
When the buildings collapsed papers went everywhere
So what really matters?
Are you getting the point of this?
That flowers not be important
When children kill the enemy
What enemy is there to children?
How can this be?
Today and always there is
Life I stopped for the hug
She loves him tenderly

I am the cold one you must be warm at heart

The eyes they shine

Lights dance on the lids

We should stop the madness

So this is what I am preparing you for

That you should be in peace

Love most is true

We have video and audio and words baffle to explain

The sick services we provide each other

We but all others have forgotten the GOD, and we want you to change
your ways

We have nothing that is sacred any more

(February 17, 2002 #2)

Two generations of evil

Their souls we must fix this now before the heavens unfolds

Must find a way to love, as brothers and as one

Heal the earth with freedom

From venom, bile, and mirth

These words are clear children

Video and muddle be gone

Seeing the stimulation

The drugs and the grabbing onto things

That the same is sadness

And the world is in madness

If you stop to look and listen

You will surely glisten

Why must we repeat over and over again?
That you the race must maintain
And you the race must stop spinning
We change these prayers so you read them
Using poetics and words you obey
That the fruits of wealth it is proven
Can smolder in the waste
That life on earth ends here
And spirit is what saves
No toys can you bring here
No senses will you need
Your heart will dance here
And you will dance here
On the earth we need to purify
And that you will restore faith to your children
And the sinners alike
That you will love GOD
And the ONLY GOD

The bickering through the ages
Upsets me with tears
Who it is that is right
Who has the most
The best
The biggest
The wonder of it all
Stained glass comes down crashing
In the material world
You have to stop fighting
This is pain for me to see

And plain it appears that you lost all control
That this earth is your gift
What you pass through the times
And the flesh that you keep
Is tempered with steel
It is temporary flesh
And makes not a difference up here
Stop clipping and cutting
All the expressions leave raw
We mustn't fight
Not on video or for fun
No man bleeds for nothing

It is clear to me as your Father that you listen not to me
I am angry but forgive you
Listen to my plea
You are off the track of goodness
So much despair
Children who hate, and their parents whose hearts die
Why abuse the body
So many things to choose
Choose life and choose me
Stop killing yourselves
The next and generation to come will unfold
If we read careful my words
We will return back to love
Stop fighting I tell you that this is no good
Separating our people is not understood
I understand you children
And you must have blind faith
Together we come and apart we break

Select one with care
Partners and mates
That all love removes the hates
And that you stand in the union
Strong and unite
This battle that couples
Can't stand the fight
It is worth this I tell you
To stay with chosen one
You love and then hate
Like a knob turns undone

I ask you to think clearly
About what makes a difference on earth
What really we want here is to get peace after birth
And that we guide our children with examples of we
And that we look into eyes of pain
Trying to comfort and be
Please spread the splendor of these messages before
You are my children
All of you

Revere no man as the GOD
I Am the GOD
And your faith be rewarded on earth and in heaven with peace
Not satisfaction of having the most
I tell you there's fighting from coast to coast
And the fire it brings us to heavens gate at once
And there, angels await you
And we have no place to go
Nothing that we toy with

All things are pure and free
The video and cropping and playing about
It's gone and you realize that you wasted your time
And that the real truth of life is that we love each and all other
That we love you and you love us
And that we are in peace
And we look for serenity
In all places that are wrong
We have missed our purpose
A brutal generation that we be
So I am in there with you
Guiding and shining the light

It is time that we hear heavens' words
And look up with hunger to me
That the Thees and the Thous are not what we mean
Change the prayers to be understood by all
And we will change them
And write for you to read
We use the special ones to let you bleed
The blood is pure, not flowing
It can bleed out the pain
You shed the pain come to glory
And stake peace your claim

You hear words so wondrous and yet you refuse
When a new toy comes knocking you grab it to use
I beg you my children, be simple in fact
That you go back to nature, and stop this act
It is time for the wonder and glory to be

Your heaven it calls you to not disagree
It makes you poetic, and sweet and pure
We want you to listen and be peaceful demure

Look up to my kingdom and think clear of its wrath
Not threat, nor ultimatum. Your clear will, it rests
You can do as you please but be careful take heed
If you want the peace we offer in heaven as angels dance
Rise up and ask me just take the chance

It is good that we love in the spiritual way
Eyes glisten with wonder and laugh all the way
The beauty in the world is still yours to see
Stop fighting and tearing the world so apart
It is yours so behold it
And never right for the fight
It is heaven that you love
It must be your plight

Not just a place this, a feeling inside
That you will be peaceful
Serene in your freedom
And hearts not to hide
Wear shining eyes to the public
And never renege
The smile that you show me, I spread to the land
And the smile is catching
And the smile is curing
And it heals yes the laughter
It heals all of the wounds

Know what you need in the rest of your days
And the priests and the law men
Are to guide to you the light
And the light that comes through your head
Will fill you in peace
The core it is love now
And don't hesitate

That love is sensible, please GOD, say no evil
It is prayer that will remove the bile from your tongue
How often have you thought of a miserable one?
And stopped yes the tongue and your hearts they be pure
Eager do the commandments read them at once
If you understand me that will be natural to do
And that you are gifted
Go forth with your gifts unedited, not cropped
Speculate not much now
And respect careful your age
Of electronics and luring that keeps you off track
Some uses are I give you that
But much is alluring that keeps you off track

Get back to the path that leads to love and beads
And the blue lace and the sweetness that comforts you all
Stay with your partners stop looking to leave
Stop wondering what's better
And stay with what you need
Find peace in this world and your journey will be
A sweet one, a pure one, need not bended knee

Honor your parents, they humbly gave you life
They loved you and nurtured you
Honor me I have chosen you to live
I love you not sometimes
Always with open spirit
It is a spirit filling you long for
One way to achieve
In silent chambers pray within the walls of your head
Your spirit is mind felt
And I bring you to tears
You will feel freedom with me
From me you spring joy
Peaceful in being
Not annoyed by the rest
Give thanks for your merriment
Give thanks for the gift
Thanks be the Lord that puts fruit to the vine
Partake in the joyousness
Take part all the time
Elbows they hurt you and move free to change
The changes are abounding
Must loosely fit the robe
Garments they mend on you
It is you need not much to load
There is nothing we need now
Just peace and some rest
Give thanks to my spirit
Always the best

The entertainment can stop now
TV's, video sets
In peace and silence breathe now
Meditate and reset
Reset the channels
For love to commute
Exchange love with each other
Communicate with each other
Exchange ideas and loves rest
Exchange in each other the spirit to fell souls
Be examples of the goodness
Watch the signs unfold
The sighs in the sky
They love you at best
The spirit is filling
You need nothing else
It is something we learn here
Sometimes too late
If you want to rest in peace
Then slumber in my bath
Be natural with fruit now
Lemons water go cleansing
It is your spirit the apple
That feeds fresh your flesh
The light dances on eyelids
Relax then lift your brow
If the head bows don't fight it just stay quiet now
Meditate and ask me for I deliver so free
The love and the answers just asked of me
I AM your kingdom here for You I AM

Like Jesus and Moses
For you here I'll be
Ask me, without you my meanings are bleak
And yours has no thunder, with out me to speak
I share you your comfort and pains and your doubts
You ask me and wonder, I promise you I AM
Remember again wise ones were slain at my feet
The prophets and idols that loved me so dear
Make no mistake of manhood I AM the only GOD here
Pray not to the mortals
Pray to me I will hear
The delivered message by angels
They dance and they speak
Their songs they sang to me
And ask for repeat
The God that I AM
And I want not fights there
There is not yours or mine
Not right, wrong, or fear
Take all in one God here
Take all in one God

The new word

Get new the word here
And spread it around
There'd be no more problems
Or troubles abound

When we read the word
That God sweetly says
The angels they sweet speak
Spread light like the rays

In keeping with goodness
We work toward the reign
God he has loved us
And come once again

It is time for the children
To rise up with their might
The evil is gone now
We all know what's right

Time it comes forth
In very special ways
If we look love and listen
To God we give praise

Heads bowed we pray for you

*We pray for the ones whose spirit is weak
The ones we know can hardly speak*

*Through which Gods mercy is heaven sent
The angels press on with loves intent*

*Spirit is strong with hearts we bind
Giving heart, soul, body, and mind*

*Please oh Lord speak whispers to the meek
Take pains and the anguish, as you we seek*

*Truth and the best that life offers us now
We need you oh Lord to show us just how*

*We pray for the powers we need to endure
Scent of sweet flowers anointed it's pure*

*So loving you are God to children at play
Knowing we must with you always stay*

*We adore you oh Dear One we beg for you so
Holding your love, never letting go*

*Desperation, contempt, to simply name a few
We'd abandon the evil to just start a new*

*The doubts and the fears shed melting away
For your love with you, we want to stay*

*For this is your kingdom we've no right to complain
We see corks as they pop like new years champagne*

*We celebrate your splendor and wonder yet still
When heavens' gates open can hardly wait 'till*

*We love you oh Lord and this we must ask
For you to shine light, so in sun we can bask*

*Your rivers and sweet waters we take for the time
That you are our love we partake in no wine*

*No need to wonder the answers so clear
That you shed light on us, removing our fear*

*And they the angels dance with you and with us
Pray for to keep us with you, with no fuss*

*We love you oh Lord this we know to be true
You we must follow heavens door to walk through*

One Day Closer

As the sun it rises, As the dew it falls
Painfully longing, my heart it calls

My heart sings angelically
Heavens' Hymns comfort me

Sun as it rises, the horizon so bright
Reds, yellows, blues, and rainbow white

Softly I whisper aloud your name
Long to hold you without any shame

Ending the night as I look toward this day
One day closer to you, give thanks I pray

Your breath is my breath; your tears are mine too
Offering my soul getting closer to you

Eyes closed I touch you, caressing fair skin
God's mercy it fills me, Holy light it shines in

This waiting I pray, one day closer to you
Spirits they move me, mysterious it's true

Our love light it shines with Gods presence we woo
The Holy One answers, he reveals what to do

Our day it moves closer, I feel your embrace
Thank you dear God, for showing us grace

One day we move closer, in flesh being one
Dew mixes with tears, as up comes the sun

Our spirits so close now, impatience unfolds
The life our love brings us, comforts our souls

Depths of my soul married with yours
Hearts as they ache, expect open doors

Come through me I beg you oh Masterful One
Keep calming me true, as rises the sun

One day closer angels carry me now
God with answers showing us how

Our love it will move, those in our path
Examples well taken, avoiding the wrath

My loins, my heart aches, you are my sweet love
Lips moisten from hunger hearing songs of the dove

Work Undone

Filled with the movement of times endless flow
We will ourselves to God, with desires to grow
The enchantment, the wonder, the glorious one
We stand here before you with work never done

Angels they dance and look to us with peace
Solitude awaits us with serene bestowed release
We praise you the Lord that we love and adore
We love you oh Lord you help sick and poor

We're ever so humble, with you we ask to be now
And we give of our souls we're not raising a brow
This peace it comes through us oh Fabulous One
We know that you love, not tired from work undone

The music of life with us it is clear
That the angels' melodies we keenly hear
The love that you fill us with cleanses our hearts
Gifts that you give us even before the prayer starts

Nothing can persuade us for we can't be drawn away
Bestow beauty to others we meet along the way
Please GOD forgive us when like children we be
Not always seeing that naughty we be

You are our beloved and never to leave
Your shine and your honor in you we believe
Our honest, sincere hearts so freely will we give
To you our great comforter through your guidance we live

Giving thanks for this our love

Time goes
Like sand flows
In a spirits' wing
Our hearts sing
For with love for you
Life's meaning is true
To embrace your soul
It is my role
Souls so deep
I watch your eyes sleep
Peaceful in silent night
Loving you it's right
With you close to me
Life's clear to see
Our depths they meld
While each other we held
With kisses like angel breath
Deep falling my love for you
Sweet love with a low voice
You are my choice
Smile within, deep to the core
We sleep in peace, like never before
Hearing you whisper softly to me
Only angels in heaven is what I see
You are my sweet love I adore you so
Wherever life leads you I am sure to go
Follow you dear to support your needs
Praying for God, He always intercedes

Moving us closer together each day
Guiding our footsteps along the pathway
Life is a holiday to celebrate with you
Angel sings, dances move slowly through
Embracing your miracle, life's full spirited
Gifts from you dear one, my love it is lifted
Accept me entire
My soul you inspire
Not part can you I give
With all of me you live
Giving thanks for this our love
Giving thanks for this our love

What life has shown me

Life it has shown me the way clear to pray
Life had it's thrown me curve balls astray

Trials wide-open decisions have been made
Perception in clouded directions mislaid

Following those in life's quest for the truth
Left empty hearted, soul unmended, no couth

Darkness surrounded me the road narrowed too
As thickened night air as if stew likened roux

Wondering in lonely times where my life would lead
No place to turn, wondered how my body would feed

Felt such entrapment caged paced to and fro
In my head noise resounded, could not let go

Crazed in my pain panic overtook my soul
Relieving the anguish release now my goal

Asking for answers is this hell on earth?
Found no good reason why GOD gave me birth

The pain it was great with nonsense all around
Face buried in distress buried in the ground

Looked not in the mirror repulsed agony

Unable to find beauty, my face not to see

Frightened with frenzy knew the noise was loud
My mind it exploded felt lonely in a crowd

Was awkward with brothers and sisters alike
Harsh tongued, bittered my words they'd strike

Hopeless, no solace, desperation, disgust
Looked up to heaven to beg for Gods trust

Needed to know what with God could life be
Before taking my life front of others to see

My Lord oh he stopped me by silencing the noise
Reached deep to my soul regaining my poise

My head raised in wonder, could this be the case
That God's coming to me, with love showing grace

'Twas so yes I tell you, 'twas so angels knew
Miracle of life still trusting a mere few

I knew that Gods' wonder, his light shone to see
Moving me forward, mercy, love, angels, and me.

Moment of truth

That moment of truth
When you're all alone
Hear silence, it's still now
Your heart to God atone

This time brows furl
You look around
Truth be known
Firm feet on the ground

Loneliness can gently
Push hearts to beg
Angels they frown
Not stand on one leg

Time comes to adore him
The almighty one
To move us to freedom
His will be done

With Blind Faith

*As the heavens their gates open
And the world's dusk, dew falls
The night is behind us
And GOD comforts all*

*We move through the stars
Reverence in our hearts
We look for the future
With peace in our hearts*

*When GOD is accepted
In presence with blind faith
That we walk to his altar
In heavens' gate*

*And through the gates of heaven
We leave damnation behind
We read words that were written
By the Almighty in heaven above*

*That God he is forgiving
For all of us to see
We must our eyes open
And follow carefully*

*We listen to a sharp honed voice
Heavens' gates, they open
Those angels are dancing
That the angels rejoice*

*The revered one is in heaven
Clapping with smiles wide
We can finally adore him
Adore him to our deaths*

Amen

Almighty One

We will be with him the light shines
Light shines through our eyelids
It opens eyes wide
That the eyes shut closed can still see
And the ears blocked can still hear
And the mouth weak can still speak
We can see you Almighty One
We can hear you Almighty One
And we speak to you Almighty One
This is your desire from our flesh so fresh
That you are our attention
And you are our might
That we give thanks to you our parent
Without whom there would be no life
We move through the glory to the kingdom
Anticipate with wonder what at heavens' gate waits
We breath in you air GOD, we live your words
What is the purity that we feel with you?
What is the love that gives us levity?
What is the magic that you have bestowed upon our souls?
What is the miracle of our hearts?
That the wretched can see
And speak to you
And hear you through their souls
That you are loud in our hearts
That the light shines so bright
That the light it shines to us children
Thank you Oh Lord
The LORD of our universe the fruit of the vine

The fruits you have sweetened for our souls to eat
We partake in your glory
Prayers rewritten for times that are new
And this is me talking; I have come to you
It is me you pray to and me you revere
Almighty this one and you are not with fear
And you are my children I show you how to pray
Open your hearts and your minds and your souls
GIVE me your blood, I will purify it
GIVE me the weak, I will strengthen it
Give me your eyes, I give you sight
Give me your breath, I provide you with air
Give me your thanks, I make merciful your soul
Give me thanks, I rest you in peace
Amen

Gods new prayer for unions

Let us be as one before thee oh Lord
That we are here in the flesh with spirit open
And, the spirit open for your filling in us
And you fill each of us
He and me
And me and she
And She and me
And me and He
That each of your vows
Repeat as such
With commitment in love and spiritual being
That the movement of time
That the movement of time, peace it brings
To the two souls that love
That I come into the unions of you
And please Oh Mighty come into us
And bless our spirit and us
Yours is the kingdom
And yours are the angels we dance with
And yours is the glory and the peace
And yours is our air

The air that we breathe
And the baby we make
As this union we consummate
We make the child for you
And in you
And with your spirit in mind
And that we come to you
Hand in hand
To the altar of GOD
To your alter our GOD to ask
That when we consummate
That this baby be blessed by your love
And filled with your shine
And that this child we have will love
And be pure
And will be the effect we need to change
our troubled world
That we will bring this child to you
And we will have this child praise you
And this child will pray with us
And be part of our union
Not apart from our union
As in generations past

And we bow our heads with gratitude and
mercy
And we beg for your light
For this day
And forever
Amen

When the Spirit is strong

*When the spirit is strong
It lifts you to be free
No sorrow or wrong
Love's house, no enemy*

*When the spirit is strong
Our peace will abound
For God's love we long
Coos lovely sound*

*When the spirit is strong
Our hearts sing aloud
Knowing we belong
Is feeling so proud*

*When the spirit is strong
Flow the waters, the tide
For love so we long
God's love we abide*

*When the spirit is strong
Peace flows through our soul
Heart hears the love song
God's love as our role*

*When the spirit is strong
No envy, greed, or pain
Feel not of the wrong
In Gods' love we are slain*

Our Prayer

God, please give us infinite wisdom that we can do your will all the days of our lives. Please God, accept our Thanksgivings to you for all the wonderful gifts that you have bestowed upon us.

With sincerity of heart, we beg for your attention

And want only to do your will oh Lord...

Please guide us with your light, it is your direction that we adore

And want to follow with all the earnest in our heart

And in our soul we beg you Oh heavenly Father to lead us into your arms

God, please watch us and love us with continued mercy and grace

But for your grace, we are nothing

Thank you oh Lord for bringing this our union to the steps of heaven

And to your altar for verification,
purification, and blessing
Dear GOD, we will not let you down
We will work to bring souls to the peace and
serenity that only your comfort can give
Oh GOD, please love us as we love you
And allow us to be open minded and willing
at every step of our lives
To accept with open arms the love and will
that only you are showing
And that temptation and wrath will be gone
forever for all men

We love you GOD and we ask that your will
not ours be done
Amen

GODS' MESSAGE (March 12, 2002)

When you are in prayer and in public and in public prayer
That the light shines through the universe
And the movement of time and that passages of the moments in our lives
And the passage of GOD as we build our lives and our loves
And that when we as a human race have children we teach them of love
And we teach them the love that none other but me have known and sent
And they shall pray to me and ask for my mercy
And the grace that I bestow is the grace I show
I have a side and the side that I give you is the side of love and peace

GODS' MESSAGE (March 13, 2002)

Jesus you say died for your sins
And I am telling you to pray to me
And revere Him if He is the revered one for you
And that the messages that you give for me is for all PEOPLE TO SEE
THERE ARE PROBLEMS IN RELIGIOUS CULTS TODAY
AND THERE ARE PROBLEMS WITH COMPETITIVE PEOPLE

GODS' MESSAGE (March 16, 2002)

Quiet

Quiet

And the people be told that the love is only mine
And that there is not the evil when ignored and told bold
That there is not distraction in there, more to unfold
So much pain and strayed souls there are
And that the purist and absence of malice in your heart
Is the true example
Not to hurt or hurt others
And that I am the God that matters
And that there are so many religious orders
That they are the distractions of life
And that they are the unlike God figures
That there need not be any complications
Why do we humans complicate this simple life?
The life that I have born to you
And the eyes that I have closed
And the heads that I have bowed, that they are the ones
That the flesh is the tool the vehicle for the soul
And that you will have the everlasting love if you but follow my word
And that all the men and all the women must wake
And see
And love
And love me
And that this destruction is to cease
And that the fires burn out
And that the explosions make not loud noise
That we stop the explosions
And the paper flying
And the fires burning
And the anger that destroys my world
And you will bring back to me your souls

That you will find peace and you will have all that you wish for
And that if you stay abandoned, there will be no peace on earth
That you will have to change the direction
Change the ways
Change the flesh followers that leave spirit untouched
That the anger of the children must not be ignored
That we listen to each other
And respect our Lord
Amen

Heart at peace

Sweet smell the mist
Like the morning dew
As the fall of the day breeze
Sway about the leaves
Heart at a peace place
Walk to your embrace
While the lace brings design
Of a love so sublime
That the echo of your voice
Leaves me with no choice
That I hear you so sweetly
Loves door opens completely
For attention you grasp
Like Eden's the asp
For my heart you adore
And my love never tore
To the depths of my soul
Lord you, our untold
That never could there be
Love shared such as we
That we follow in your splendor
Love ever so tender
You love us oh Lord
To write of this love
While others they see
Sing out with the dove
Loves nest found its way
To our hearts on this day
That the hearts we cherish so

We'll never our love let go
That the love that we too
Watch night turning dew
For the crisp breath of air
Loving without care
The world by our side
Your love we abide
That the laws of heavens gate
Make us contemplate
That the love that we feel
Is most surely real
Never were there two
Who love only you
And share eternal light
With breaking dews night
For we love you so tender
You, our loves sender
So mist smells of roses
While angelic dove poses
For scent be the rich
Smooth run with no glitch
So here we offer up
The wine from our cup
As sacrifice to you
For the nights morning dew
The love that we share
Without that a care
We know of one heart
We never will part
Thank you our God
For gifts not compared

Nothing on earth
Can near in this mirth
We joyfully dance together
Lips pressed for some time
You God give us love

Nights dew, how sublime
We know that you tried
Making me his bride
To show us the wonder
Rewards not asunder
So thank you our lord
Play heavens' chord
Dance with the angels
Sing, dance, and rejoice
The love that we share
Have not us a choice

GODS' MESSAGE (March 17, 2002)

All of you for which I bestow the beauty and light
And that the children will come to you
And the eyes will open wide and in wonder
And the evil is to be squashed
And the no good ones are gone
And that you will love
And you will love me
That there is hope for the ones who adore me
And the ones who admire me
And that I AM the righteous one
And that you are the children who follow and love
And that you are the children who listen
And that you will shine
As I have said that you will shine in the kingdom of the Lord and that
Lord as I AM
You will see that the freedom and the head bows
Not to fear
And to ease me out is wrong
That those who don't do as they know is right
Will be in the rink like in a fight
I AM not the one to reckon with and I know all the truths
And there is a lie
And there is a lie
And the lie I know them all
I AM the Lord. I AM God and I have seen it all
I have MADE it all
I AM the maker
And I issue the rule

And I am forgiving
And I say not to lie
And not to kill
And not to cheat
And not to judge
And that I AM the wonder
And I AM the glory

GODS' MESSAGE (March 20, 2002 #1)

Beaches, sand drifts
The mist of the air is free for all to share
Easy not to see that the gifts are from me
That the money can't buy the truest of necessities
That the truest of life and the truest of death
That you love
That you honor
That you are pure
That not smoke or bile be in your flesh
That you will be in the glory of the love
The light it is seen
The shine that you bring
The ones who they see
That pattern pressed to be
Not to mend here on earth
Repair only heavenly
Love is the answer and this has been told
That the bile and the hate
Are what I disdain

GODS' MESSAGE (March 20, 2002 #2)

That I reward the free of malice hearts
And that those who love I make never part

Notice the great loves of the life stories told
They die together or in times shortly unfold

Not to be apart from the loves that I give
You are the blessed, love, laugh, and live

Promise each other to honor and obey
For this is not ritual, this it must stay

You are chapel chosen in heaven and on earth
To love each and other, for heaven gave you birth

And see into others, the gifts that you save
Souls that are watching the way you behave

So close to me walk with your heads held up high
And not to bring mischief, the heaven gates don't lie

Sincere your hearts you must not wrestle in sin
You must love and be pure from your soul deep within

Children surround you with mystical eyes
Watching you falter waiting for more lies

Children they see you with wide-open eyes
Waiting to see if you too say good-byes

So stay with each other true in spirit and love
Your fit is like hands that slip in a glove

Take not of the wicked partake in no wine
Drink sweetly the sap from the fruit of the vine
God

GODS' MESSAGE (March 22, 2002)

With tarnished hearts I bring you to the altar of my love
And your tarnished hearts will shine in the polished right

So senseless are the fights like the prayer book it is told
That the world is in fight in indignant manners told

So sling the word of the glory to all that can catch
And there will be nothing in this world that can match

And that the world is in glory when heaven smiles down
Only when you laugh and not show a frown

That the heavens are waiting for the ones who pray
And that you adore me, and that you adorn me

I know that you're humble and sometimes have fright

I carry you with me all through the night

No need to be scared of not having needs met
I am not done adorning you, not quite done yet

And you will have splendor
And wonder the same

When Silence it calls

When silence it calls, it calls to me
Noise yes it mauls, like life's debris
Loneliness settles in the pit of my heart
While seldom it ceases to tear me apart
Life holds promises only at best
Freedom from pain when I lay to rest

When silence it calls, it calls to me
Tears that I hide from others to see
Pain in the depth of my soul as I cry
Begging forgiveness while asking Him why
Tell me dear God is it really true
That facing myself is all I can do?

When silence it calls, it calls to me
Look to the sky for God's there to see
Downtrodden I pray for a miracle cure
Lighten my heart, with angels secure
Begging for mercy on this decrepit soul
Looking upward, to creep from this hole

When silence it calls, it calls to me
So desperate to feel my spirit free
Waiting I pray to the Almighty One
Hoping my life is not quite done
Relief is in sight when I pray to my God
Magical bolt reaches me through a rod

When silence it calls, it calls to me
So rigid and stiff like the forest tree
Hope seems so cruel, my burdens to bear
Loneliness stings while comfort's so rare
Oh please my dear Lord I beg you so
Release this the pain please make it go

When silence it calls, it calls to me
As one when I pray to angels and he
Praise to you, oh Omnipotent One
Turn my soul and spirit to the sun
Waiting for the dawn patient I pray
Listen closely to what God will say

When silence it calls, it calls to me
Sincerely I pray for divine decree
Trying to rest now in the spirits delight
Begging forgiveness with all my might
Spared this soul given love from above
I thank you God and give you my love
Amen

GODS' MESSAGE (March 23, 2002)

Slow sometimes is the spirit that moves within
Treat the world and this life with the ease, and grace of the delicate flower
That you will be free from the ails of life but there is no comfort without
pain
That there is no wealth without poverty
That there is no bloat without hunger

And remember that you have to do a good turn for someone each day and
not be found out about
If one finds you out and knows your good deed, it is no longer a good
deed but a selfish act for glory
You have learned many things in this life
And there are many and much yet to come
And that this is the wisdom of the sages

It whispers in the wind
And pain is necessary component of comfort
It is magnetic force
Like push and pull
Like gravity
Like yin and yang
And you must realize that the earth is yours
And you live here and I have given you the best gift of all
And you must always treat it like a gem
Not to be dropped or fooled with

.....

Seeds that He sows

Free flow is the pen that kisses the page
For this wisdom deepens like love from a sage

The herbs from a garden mix well with the thyme
Rosemary, mint, parsley all grow in time

Gods' fruit shall be placed for all to eat
Like grains and the air and even the wheat

Must place in the body to pure all the blood
Like Gods' rose aroma the senses they flood

In cases of doubt you must look all around
See God, his power, His love you have found

Take not for granted the seeds that he sows
Growth and the beauty for all he has chose

Green floral colors the skies ever blue
Gods' love and glory are ever so true

Waters so clear for all to consume
Not taken for granted for all to presume

Look up to the glory of heavens open wide
And enter the kingdom just step inside

God gives you the fruit and the air so sweet
To praise Him your master until he you meet

Take steps to the altar of loves shining light
As children you're guided it's God given right

Step into the Kingdom when time it is clear
Comfort and adorn you I will when you're here

Must beg for my mercy and pray day to day
Look to the heavens to see me and pray

Close eyes and be quiet to listen to me
Time for all children to watch me and see

How love and life's glories are here on this soil
Look to me with prayer, not occupied in toil

Work only for me and your gifts reap the most
Try not to please people, please me I'm your host

You need each other so I made your love strong
Nothing you're doing can be looked on as wrong

Uninspired

Lead of the heart is the property that is the start
The start of how the inspiration leaves
And that the emptiness of the unblessed
Is how the heavy heart is received
So that the empty heart of lead
With inspiration void of stead
Is not the heart that we want best
But the heart we want is God blessed
So the spirit is out and the nothingness loud
We walk still so alone in the midst of a crowd

We have been the healers, what another sees
And we know to well our adversities
Skies that are empty with inspire a void
The lead of my heart nothing enjoyed
Not inspired to live or to fight
Praying for end to come to this night
So if there Is nothing to bring to this life
The empty heart void cuts like a knife
So pained is my soul at lack of desire
Too early in life to young to retire

Empty, no movement the lead of my heart
Inspired not, impossible for me to start
No art in my heart, No words on my lips
No motivation my heart in two dost it rips
Unaware of the plans that God has made
Can't move from this pain down my head laid

Downtrodden I rot motionless I bow
Ask wonder from God to inspire me now
Empty is my blood not inspired to my height
Begging for God to show, enter me, and write

GODS' MESSAGE (April 2, 2002)

Keep asking for the guidance that I give
And I will lead you as I have thus far
And stay humble in heart
And stay easy in spirit
And stay calm and relax in what I have there to give you

Tell others to endure
And relax
The world is full of war
And fight the guns that shoot the people as they fall
And the falling of the people
And the falling of the places
And the failure of the lands
And the sorrows
And the buildings that crumble
And the desperate of the minds
And the sickness and the weak
And the merely meek
They all need to see the peace that can be

And you are not to be alone
And you are to be loved

One smile brought to the face of the despaired one
Is that of the angel who touches a heart
Amen

GODS' MESSAGE (April 3, 2002)

And the fires that come from the ground that which burn and that which
bruises
These are the forms of the world that I disdain
There are fierce ways of those tongues
The sharpness of the swords that take and end life
Remember that this strife even though untamed
It be that this is the will I have for all of thee
This is the world; I have created it here
And that the war and the pain is that which remains
There is not a doubt that there is this war
And that my will is the reasons that some will see and some will not
And that some will hear and others not
And others will share and speak
And others will not
And that you will hear
And speak
And see
And feel
That you have been blessed
And that the ones who have not will have other spirit be
And that the good spirit
That the one who prays for me
And that the ones who pray to me
Will reign the land and the kingdom is me
And the saints like the ones on the walls of the stained glass walls
They have been chosen and they do for me the work that I ask of all of
you to be
Amen

Abandoned by life

Gratitude is that thing that happens when you feel safe
Latitude is that thing that happens when you have grace
Aptitude is that thing that you find when you do it well
Servitude is that which you have when God you tell
Attitude is that thing that can be bad or good
Gratitude happens when you do what you should

In the times of my youth the pain it abounded
The echo of the hell as the sound it resounded
Noise in my head traveled frantic in my soul
Wondered to what depth I'd travel that hole

In the times of my youth abandoned by life
Only deep anguish my heart cut as the knife
Peace as it's told so far out of sight
Trying to find some of God's divine light

Mothers and Fathers of this child of fright
Just not around when fear fell at night
Survival caused smiles of fake hearts expressed
Required loves care though deeply depressed

Saddened by Christmas the presents meant nil
They checked on this angel, I just lay there still
Empty I laughed to fit in with the rest
Not ever content, just passing the test

Looking for answers to questions unfair
Nothing developed in this child's' despair

Shame overtook me, hurt not letting my soul go
The God that they speak of a child doesn't know

Innocent, sweet, never swerving from the pain
Searched eyes of adults, who themselves felt disdain
Events as they turned when adolescence set in
Looked for attention, found ways to commit sin

With Childish Fear

My heart it jumps, pounds with childish fear
That when you are sad I can't hold you near
My heart it pains me in the moments of quiet
Your love, you understand, is my only diet
The love I feel deep within the pit of me
Is the sustenance that I need to simply be
The way you hold me close in your arms
My trembling stops my sadness it harms
Not now the end of this magical bliss
Lips they explore me with gentle a kiss
Your fingers caress my skin so fair
Love we each other we always share

My heart it jumps, pounds with childish fear
That when you're away no answers are clear
Love that I feel depths from my soul to yours
With you love and God, love opens all doors
How can I live with breath far from reach?
Listen for lessons this love is to teach
Find peace to be found in this magic I adore
Tears I shed with sadness, fall to the floor
Listen to the songs of the angels above me
Await the time your smile will my soul free
Look to the sun for Gods comfort through this
Wait for the signs that your love I won't miss

GODS' MESSAGE (April 6, 2002 #1)

You know that the stained glass is tumbling
 And that when the buildings crumble that the spirit lives
 And that when the stained glass
 The wood, and the brick it falls to ruins
 That the spirit of me lives
 It lives on in everyone, everyone who accepts me
 And my prayer and my praise and my ways
 And that you are a sweet child
 And that you are the good child
 And the heart of yours is pure I know this

And that I AM Lord and that I AM the one who saves and creates

For everyone in this world and on this
 earth there is to be a shine
 And the light will light the world
 And the heaven waits for the ones who
 praise me
 And that ones who ask for grace
 And the ones who ask for mercy
 And the ones who look up to the skies
 And the ones who look down to the earth
 And those who ask for me

And I will comfort them
 And I will see them and that I will praise and shine
 And give glory to the wondrous ones
 And that there are some
 And so many lost souls
 That to return to me would be the blessing of this world

And this universe and to stop the wars and the fires and the fighting.

It is time for all to rejoice and to react only to the Lord

And to pray to me

And to say to me that there is never a better way for the judgment day to be here

And have my light and love shine on you all of you the children of my world I have created

And I disdain your taking over and playing God

The people of this world are not to play God

And that I Am Lord

And that I Am the only one

And that you all have to stop the fight and that there are no true righteous ones only Me

And that all men, even Jesus, made the human errors and repent of their way

And that I AM the only God that you shall be not fooled by false prophets and that you shall not be fooled by the riches of the ones who misuse

And that you will pray and pray and pray for me Amen

GODS' MESSAGE (April 6, 2002 #2)

Sometimes the love that you have to shine to others is the love that I shine to you

And other times it is the pure love that two people can share when they are the same

Like the alcoholic helping the alcoholic

And the lover helping the lover

And that the one that sees

And the one that feels is the one that helps the one who sees and the one to feel

Tiptoe through the tumultuous times

There is no time for envy and not any time for fighting
And there is no time for doubt
Tiptoe through life in the way that you are, softly
And that you are soft and kind
Be all the children soft and kind with peace and stability
And stable the mind and stable the times

That you will see the gratitude that awaits each of you

The importance is placed on the heavens gate
That all thought to be true
That the truth be given to the prayer
And that the honesty be given to the prayer
And that the sincerity be given to the prayer
Amen

GODS' MESSAGE (April 7, 2002 #1)

AND THE FIRES IN THE SKY
AND THE VOLCANOES THAT I ERUPT CAN BE THE POWER THAT
YOU WILL HAVE THE OTHERS SEE
I HAVE THE OTHERS SEE THE WRATH
AND THE WAY THAT I HAVE TO SHOW THE WORLD WHO IS THE
BOSS
AND THAT THERE ARE SICK ONES
AND THAT THERE ARE THE ONES WHO BURNT
AND BURNED THE BUILDINGS
AND THE ONES WHO MAKE THE SKIES PINK
AND THE ONES WHO MAKE THE CHEEKS PALE

AND THE ONES WHO TAKE ONLY THE LIFE OF THE ONES WHO
ARE TRYING TO LIVE
AND THE ONES WHO ARE SICK AND DEMAND THAT THERE IS
WAR ARE THE ONES WHO I AM SURE TO DISDAIN
AND THAT YOU WILL HAVE THE COMFORT IF YOU PRAISE ME
AND IF YOU PRAISE ME THAT YOU WILL HAVE THE COMFORT
OF THIS WORLD
AND THE ONE IN ST. Peter and the heavens' gate
And that Jesus is standing there and waiting
And waiting to take the souls to me
The children of this world
And the ones who pray and stay close to me
And I will have the power to stop the adversity
And that I WILL HAVE THE POWER TO LEAD THE ONES TO THEIR
RIGHTNESS
AND TO THEIR RIGHT WAYS
ALL OF THEM WILL KNOW WHERE TO GO
INTUITIVE THEY ARE LEAD TO THE PLACE THAT THEY BE
AND THAT YOU WILL LIVE IN ME
AND ALL THE DAYS OF YOUR LIFE
AND THE PEACE IS TO COME FROM SEEING ME
AND BEING ME AND BY PRAISING ME AND BY PRAYER
AND BY SURRENDER TO ME
AND THAT WHEN YOU SURRENDER TO ME, I HAVE THE TIME
AND PATIENCE TO TAKE THE WORLD
AND THE WORK OF YOUR LIFE
AND THAT YOU SURRENDER
AND YOUR WEAKNESS IS THAT CLAY THAT I CAN WORK WITH
AND THAT YOUR SURRENDER LETS ME IN TO PLACE YOU
WHERE YOU HAVE TO BE FOR THE ENTRY TO THE ANGELIC
GATES

AND THAT IS WHERE THE SAINTS WAIT
 AND THE SPIRITS FROM PASSED ARE REJOICING
 AND THAT THIS PRAYER IS TO INCLUDE THE TOTAL OFFERING
 OF ONES LOVE AND BODY AND SOUL AND SPIRIT

Darkness is the night

*Darkness is the night
 That the dove and wings take flight
 That there is pity on the troubled ones
 Silence are in troubled times and runs
 Into the way of the heart of painful sons
 And the children that keep in the pain
 Can pray for, but see no rain
 And the way of the eagle nest
 To comfort you and be blessed*

GODS' MESSAGE (April 7, 2002 #2)

There will be love and peace to all that pray to me and for me
 And to give praise and to stop the wars and to ignore the annoyances of
 this life
 That there are many schedules busses trains and they reap pains
 And there is the world that others read while they speed through this
 wonderful life and that each think that there is the importance of their life
 and without my love the glory of God there will be no importance only
 opulence

And you must look the world in the straight eye
And not deny

When the sounds they resound like the sways of the tide like the thunder
in the skies and the wind no one denies. It's the sound that resounds like
that of the rumble of the sky, in it a tumble.

So that the ways of the spirit as it moves in the soul and the ways for all
times and the ways that we know

Gods' Peace

*When the peace feels like this you know you can't miss
When the times feel like this you know you live in bliss*

*And the times that I bless for you soft as the morning dew
And the times that I bless for you; you each day start a new*

*That the peace that feels so warm, others to you will swarm
This is the charming day that day you make your way*

*And that the love that I have given to you
It's that good way that is true*

*That the good way is the right way and the way is to me
And that when you teach to pray can pray on bended knee*

*That the wonder and the magic of the dances in heaven waits
That the love I embrace you with is at heavens gates*

GODS' MESSAGE (April 13, 2002)

Peaceful be the hearts that bond
And angels they dance
And wave their wand

And that this is the road of the pathway to peace
And believe in me on life, have new lease

So praise be the glory that Jesus has said
That the way to the peace is to love all the days and to love all the ways
And all those in the way and the peace and the love, nothing better from
above
And that Jesus he walked and with others he talked
And he laid ON HIS LOVE AND Holy Ones' light shone, His heart was
with truth
And nothing else was missed
And that when they saw his eyes their hearts were blessed

And that this is the trying time
And that the sadness of the war
And that this is the way that the world will tumble be the buildings
And that the papers were flying in the sky
And that the people were dying
And that the center is gone for the world
And the children are Fatherless
And the lovers are without
And that the way of this world is disdain to me
And that the couples to pray

And that you will stay all the days of your life with peace in your heart
And stop madness it is your job to stay in touch with this Lord
And that trouble must leave
And that there is pain and the buildings collapsed
And that the people are mad and that the children are sad
And that the ones who strap bombs to the waist and the thighs
Are the ones who will die and not love to them come
And that lovers are alone and the children are crying
And that the mothers lost sons and that the fathers lost daughters
And the sisters and brothers who have no more mothers
And the point of this world and the treasures are none
And the way that we will heal is to give praise to me
And to love me
And to pray for me
And to pray to me
And that this is the time

Gods' Message (April 15, 2002)

When through the ages wise men and sages
They went to the Lords and they asked for the words
They said to the people that there is doubt through the land
And that the people don't listen to the way of the word
And that the sages that were wise they told never lies
And that the world understood when they spoke of the truth
That the people in the villages all through the land
Were also afraid and they were not following

That the love will abound when the people pull together

And love and that the world is that of the above angels
And that the angels care the say that the protection is to be
And that the wise are the ones who pray
And pray for me, And pray to me

That the ones who are wise and the ones who tell no lies
Are the ones through the ages that make life all through the stages
And that the world in its glory has been fighting all the days
And that this is the time that we change our minds
And that vision of the wise ones must follow in these times

Share of the life that all shall share what they know with each and every
soul
That each child shares the woes and the cares
And that when the woes they are shared
They are dared to be exposed in the truth
And that the fixed and the sane and the criminal and the wise
They and you are all the children and that the children of me are to gladly
and boldly see that the time is now for the world minds to change
And the changes of these times are the necessary medicine for the divine
And the divine one is Me
And that you can see, And that you can hear that this is the way
And that if you pray and the wise ones pray
And that you all of you stay with me
And that you are all my children
And there be such fussing and fighting
And the frightening ways of this world as it stays
And that the fires and buildings crumble
And the papers they fly
And the ones who deny are the heathens of our times
And this is the way we change our minds

That the importance must shift
And the knowledge of this is my gift
That the minds of you shift
And the reason that is lived by is to be changed
And that this importance that is placed on the phones, calculators, and the
vaults
And the banks and the electronic ones
That these too have burned and left earth with out a sound
And that when the buildings crumble there's nothing but souls
And the souls that are saved
And there's no data saved and the money was shaved and the smoke there
it went

And that you shall see the wisdom of the sages and that criminal age and
the act sets the stage for the times to be changed
The importance must it shift as the love as a gift
So pray and pray to me and stay in prayer deep
That your soul and the magic I am surely to keep

World of horrors

W.W.II or WTC World of horrors

Wars of the times that took of our hearts
Buildings they destruct as the ground they struck
Weapons of war as the hearts they tore
From depths of the soul left empty a hole
Wars that crashed the fires
Empty souls of their desires
Fight as the lives of the sons were taken
World as we knew it, blown up and shaken
Fires and the dust we lost all our trust
Safety not here, only left with fear
That the night lit with fire
Empty hearts abandon desire
Children run to be free, looking into eyes to see
Desperation of the mothers for who love will no longer be
Buildings they topple with thunderous birds
Jets make their way through the sky's x-ray
Thunderbirds roar we wonder what life is for
No hope while we watch those fall from the sky
We look up to God and beg to know why
Birds stopped in flight, ask will we see one more night
For pity the souls whose loved ones feel woes
Rockets canyon balls fly through such blue a sky
Leaving debris and much dust, no more can we trust
God we beg of you now to show us just how
To stop this dishonor to the earth this our gift
We pray for the minds of the Hitlers to shift
Black smoke in the skies we watch while love dies

In two times of different places, we can stare into the faces
Of the loved ones of passed, having sameness at last
Children are seeing what their parents have taught
Now desperate we plead, though freedom can't be bought
And the iron bars they bind us in the irons of wrought
While mountains hide thieves and murderous ones
Our shoulders are heavy bearing tons and more tons
Shout at each other, to save our loved ones and own soul
Know not where to turn, feel abandoned in a hole
We wait for the time that misery's not there
We sit by ourselves at empty walls we stare
Pray for life's meaning to come to our hearts
While wondering how we all make new starts
Without the loves of the lives that we've known
Our tools for survival we sharpen and hone
It's time for our prayers to turn to our God
We beg for our sins quietly we pray
Unknowing we're knelt on bended knee we cry
Ask only for the peace to life let us get by
Can't get through this life, with the pain it's too great
Wonder with anger why we're left here to contemplate
Is the story of life such a cruel one we ask?
No sun will rise mornings to us for the bask
Can't sit up to eat or think clear with desire
We only wish we'd fall to our own retire
The emptiness this world feels the hearts float up above
Such empty the shells that we house without love
Please help us Almighty the Fatherless ones
Feel that we need you this time we won't run
Desperately sad now we march on through our lives
Each breath that we take our hearts cut with knives

We walk with heads bowed what's the meaning of life
Men wonder how to live now, without near their wife
And the mothers and children separated here on earth
The ones, who were pregnant, will now not give birth
And the sweat and the anguish of the men of service
Their families who live, when they work are so nervous
And the hearts as they throb for life, is this a mess
We beg of the God we know to stop this and bless
We need the work of the Almighty One in the stars
We look up for the night clears removing the bars
Prisoners of life we feel anguish and hate
Can't move to the sun with such heavy a fate
Blood flows through our veins with our own aches and pains
We see nothing of freedom just binding loss no gains
Please God forgive us we're punished enough
We beg for your mercy to change evil men
Not give them the power to strike us again

The man in my life

Forming the words, such a difficult task for me
My heart can be singing, for others to see
Expressions of the universe are seldom seen
Back from the depths of where I've been

Deep are the sword scars, for hate, not for peace
Many of the people, sign life's new lease
Clear the messages for the way that I seek
Preserve the blood, the heart of the meek

It's Gods love I feel in the depths of my soul
Doing his work is now only my Goal
Heavy is my heart, I can tell from the start
That life for me holds many heavy loads

Tears are the serum that fall from my eyes
Listening to wrongs I know mostly lies
Kin to the spirit is the man I adore
Never enough, wanting some more

Stories I tell you are mine to behold
When upset comes in me, angered I'm told
That the blessings of God are gifts unexplained
That in my eyes look deeply to see my heart's pained

So that which you love dear, is the way for me here
Stay with me in wonder, through year after year
Proud to be me, just one with my God
Loving to pray for the peace I have near

The peace yes is in me, the way that I live
I'd give up things, that I all of me give
I want what I have, not asking for more
Even when waved carrots, wink as a lure

That the moving from peace, is not where I'll stay
It's peace that I seek here, loves feeling each day
I have to give thanks now for the man in my life
Knees touch the ground; pray thanks I'm his wife

Stand by him I will with the love of my God
Care not what others think; they look at me odd
You are the glory the peace and the love
So sip of the water, and to me make love

The Bottom

We come into this world in flesh so bare
To complete the cycle of the life we share

As hurt infects the pitter-patter of young feet
Wonder alone of this cruel life that we meet

From pure of the heart and kindness of soul
Painful our life carves us deeper in the hole
Travel to the depths the bowels of despair
Thinking it's possible to not have a care

Fallen deep into the pits we find our demise
Sudden we face death it's return a surprise
As children of God we know not where to turn
We're thieves as we steal while still others burn

Many of our kind sleep with each other for a dime
While in jail we spend life paying for the crime
Consume of the fruit and fatal the taste
Chemicals we use, our lives what a waste

So we look to the sky asking of his grace
Begging for mercy, knowing not where to face
We know it is worse then we ever could expect
Our childlike innocence now with no respect

Faking our lines telling all kinds of lies
Hoping others ignore us, not seeing our eyes
No time to relinquish this devilish life
Run in our circles chasing the knife

It's time to creep out of this terrible fate
Look up to heaven, God please us save
Time to stop this madness, get back on track
If by chance we've not fallen too far to get back

We've watched brothers die and some go insane
God beckons us back to release us of pain
As children of God we now know where to turn
To God for the taking or in hell we'll burn

GODS' MESSAGE (April 20, 2002)

That the parents of the children are ready to learn
So they raise our futures without buildings to burn
The children are important it's clear to see
That you and they pray and the world will it be

And that the world will be different when the children they learn
To build buildings with love and never to burn
That we collide with each other causes animosity
And that the war the hatred are clear enemies

We are not going to survive this dreadful a place
If we don't change direction and stay at this pace
We must learn what we do here
And please send me your praise

We in heaven love you
And are willing to help you
Need only ask us and let go of the rest
For we know how to do it, we created the best

Remember that we created the heavens and the earth
Then you came here because I allowed you birth
That there is nothing here that's so terribly binds
That if you don't see me it's because you're blind

Blinded by the love that I have given so free
And that you are the ones who must depend on me
That you are the ones and you must pray

To keep this earth from going astray

Enhance the beauty of the hearts that you meet
That you are the ones who are sent to the street
To help all that want it, and pray for the change
The change that the day brings, that we love once again

Remember that the bottom of all lines come to this
That there's love and there's freedom and unlike cat's that hiss
We must have the love and give it so free
That we know who our God is and our God is me

And that you know who to turn to in times of despair
That you make me your loved one and it's it not rare
That when you approach me in love and with love
That you are sent gifts from the heavens above

Watching him leave

*He heads for the door I watch him leave
Entitled to nothing, his label heart thief
Innocence gone, safety I can't conceive
Watch the door close, it's hard to believe*

*Thought at last he loved me, a tender heart
The door as it closed my world fell apart
Fell deeply in pain, heart struck with a dart
Never could I manage to make a new start*

*Prayed to God, I watched mother in tears
Waited to see what she'd do with her fears
Terror around us the night darkness nears
Watched through the window, a mans eye leers*

*Frightened, alone with only panic around
Wondered if our tears made too much sound
This new life of pain what was it we'd found
Our faces were buried deeply into the ground*

*The stage it was set for the rest of our lives
We'd never have men, know not how to be wives
Looked at women who passed one who strives
Still pained in our heart thickened with knives*

*Dread and despair shadows empty our house
In silence we sat with tears us they douse
Knowing we hate him said he's surely a louse
Look down at the heart the blood on our blouse*

Waiting for Gods' word

*As for my youth, what really did that mean
No spiritual binding, never did I feel clean*

*Didn't know of God, watched not a thing
Floated through life, never got the brass ring*

*Faced with the fury of lives unswerving hurt
Ones in my life answered shortly and curt*

*Believing in nothing empty heart in a cast
Thought if I rebelled, perhaps I'd not last*

*Wanted the truth that so many had seen
Couldn't remember where it was I had been*

*Prayed to the heavens when my fate seemed to end
Asked God to come through, start heart mine to mend*

*Knees bent on the floor looking around as I prayed
Hoped no one saw, that on the floor there I laid*

*Sadness it weakened my soul needing help
No breath in my lungs, could barely for God yelp*

*Listless I lay as I prayed for some time
For God to come to me, a bell to chime*

*Felt warm when God listened, my pleas they were heard
Paid attention in silence, waiting for all of Gods word*

*The comfort I felt and the peace that came down
Smiled I thanked him, for up turning my frown*

Gods' lighted ray

Jewish is your child what does all this mean
Can't beckon your love God without making a scene
And the love that we give you for lives of those to see
What happens to the men of this New World to be

As elders we move to the miraculous one
Grasp on to time when we were having fun
These are the times when the heaven and earth mix
The hearts and the lost souls for God to fix

When lovers are united in this so-called earth
Must respect and be focused to know what it's worth
The peace it rounds us to people of whole
We know that we're one with the Almighty God

That we can't hear this clearly, the message I unfold
That the words that I tell you will only you hold
And that you have much to do and your mind is a miss
And that you can't see the splendor in all of this

Tired and flustered the luster seems gone
But true in the hearts, yours the spirit lives on
That the love that I give in unmeasurable ways
You have lots to live for during all of your days

Easy to see clear now that this is the way
You follow the path like Gods' lighted ray
Follow me closely and I won't steer you wrong
For all that I told you and nothing too long

There's light in the heavens and I have promised you peace
You must know I love you, I never let you down, nor do I cease
Telling you your safe and the abundant life always waits
That your heart and your mind they both I to sates

The two of you have the abundance of life
To love and to laugh and the plenty of life
And that you are the ones with the rapid life to live
That you show of your shine and to children you give

Amen

Embraced God

Because loneliness my heart it overtook
 Embraced God with open arms I shook
 Searching for fulfillment in my lifetime
 Aware my empty heart wreaked of crime
 Possession of abundant love I had to give
 Embraced God so in Him I could safely live

Cryptic were the words I heard myself say
 When talking to those whose faces like clay
 Lonely in my world ashamed I'd isolate
 Companions in others, I just did not rate
 Embraced God I did so my life had a point
 Oil of the saints for my forehead did I anoint

Alone in the darkness with God, Life, and this fight
 Embraced Him with glory begged mercy from His Might
 Touched by Gods' heart the light rays I saw
 Came to my heart defying all science's law
 Felt peace it surrounded my loves shining light
 Gave thanks to the lord nothing else was my plight

GODS' MESSAGE (May 1, 2002)

Buildings they crumble and the souls they all tumble
 And the misuse of the gifts is surely so clear
 That the ones who are evil and sick in their minds
 They make others weak and kind men go blind
 Which is it you children of this land that I give?

When you seek in my love, it is life that you live

You children of God send the evil away
Let the spirit of My mercy come to you this day
That the ways of your souls must be pure in their ways
And give thanks to My Kingdom; it shows as one prays
And this gift of the life that I offer so sweet
You must now know I love you and give you this earth
The ones who are loving and praise me so much
That I have to give more to the ones who are pure

When the evil ones prance around with attitudes that are stuck
It's a must that the good ones they pray and not duck

It is important that all of you men know what to do when the times are so
dreadful you must teach them to pray
And pray so hard that I listen to you but that the prayer is to stop the evil
ones in their ways

Understand this true that I am the one who has the gifts to give
And that I am the one who allows you to live
And you ask why does GOD let this thing happen here
It's because I want prayer in order to hold you near

And that I have to teach the world of my love
In the way that the misery ends
And then they hear songs of the dove
That the songs and enlightenment only will come
When the misery and fighting are all final and done

And that the ones that are fighting are the ones who abhor

And that you ones who praise me I surely adore

And that ones who give thanks are the ones that I see

And the ones that I see are the ones I bring to Me

And that the spirits must know that I am here for the taking

And that I am here and the world can be a great place in the making

And that the world will be peaceful only if I Am, you obey

And that you will have to make this the day for the peace to reign

And pray to me

And love me

And lay down for me

Not to hurt your fellows

And to love all the rest

And to brotherly love

Always put to the test

Peace be with you this night

Amen

Single Moms and Dads

*Single Moms and Dads
What I tell you is true
Children in this world
They are most sad and blue*

*Children in the world today
Abandoned and blue
In an unnatural way
Are so sad, it's true*

*Sadness as it sounds
That the faces they frown
That the world in despair
Is the world of today*

*That the pain of the children
In the heart of us all
We know that the truth
Deserves not a fall*

*So, tell me that you will rise to the top
For the ruins and pain we all must it stop
That the vision we see is that of the death
That the pain in the hearts is the way to this end*

GODS' MESSAGE (May 2, 2002)

I tell you today as I have told you then that the children in pain is the end of this world

That the children in pain
They never will gain
That the way they are treated
And the words become heated

That the world that I have given
Is the way you are driven
And that you are the lives
That you are the lives

It is essential to pray
That the words can not stray
That you pray for me
And that I will help you see
That the words that you hear are the ones to hold dear
From the ones who see me and you know who is He

That the words from the ones with peaceful their ways
That the peacefulness will stay all of the way
All of the day that the peaceful will stay

Cherish the ones who know from their soul
That the love that I give is the one to be told
That the love that I give and that you sure can live with the ways of the
Lord
And not to dismiss these clear words

That the Lord is the one who comes into the soul and fixes the harm done
by the evil ones

And that the ones that you know are the ones with the cloth
And the fabric of the innocence of the ones who they teach
That the teachings of God are the teachings we need.

And that you will have the harmony in life you have earned
And that you will live peaceful in the love that you learned

Head bowed with eyes closed
Spirits dance as if they're posed
For pictures they prance so we can see them clear
When in the churches and places we pray
That the stained glass windows have the posed
Of the ones that revere him and the ones that he chose

Like the chosen people of these times and then
The ones who are loving and truly good men
Spirits are wise and the ones who teach
They work hard and pray for the ones who they reach
And that ones who are reached through extended arms
The ones who preach from cities to farms

That the ones who adore me are in heaven and on earth
And the ones who adore me I give them their birth

Peace dance with the spirits and the angels at glee
The dance of the spirits dance with you and me

The people of this time are not different than those of that time
When the wars and the fighting were making all the harm
That the fighting of yesterday is no different then today
That the wars and disease they take life away

That the wars of then and the fighting today
The repeats of the anguish must go away

That the repeats of these times are desperate of the minds
And the way that the torture unfolds is a crime
When buildings they crumble like what happened then
Same as the bodies that burned at the hands of men

That the bodies that burn in buildings or in camps
No sense in this torture we must train men to pray
If there is prayer in our hearts then we can say just one thing
That the love that we shine will only love bring
That the hatred and wounded and the brains strewn around
Will only bring hatred and bad men around

That the women and children and men all shall pray
For the wonder of miracle for times when we say
Please God come to us and pray here each day

That the children and women must know for this time
That the way that we make this an angelic place
Is to pray and teach our children to seek comfort from me

That the comfort and peace that one gets from Me the Lord
Will guide and give freedom from jumping aboard

If we are to survive this incredible race the humans must teach children to
pray
And that we must mend hearts and heal all the way

That healing must take place or the disgust will set in
And the children won't bare children and no one will win

If we don't pray for peace and the love that we can know
That the generations to come will know not where to go

And children will have children and not know how to kiss
And there will be no freedom, no feeling of bliss

And the children that hate will not seek to have more
And the children who falter will not love from the core

That the children will master the hate crimes they see
And the buildings will crumble more than they love me

So they must learn to pray to get peace in their mind
So they can love life and give others same kind

Saying Goodbye

Saying Goodbye
To the one I adore
Oh how I try
As closes the door

Saying Goodbye
Can be oh so filled with pains
While watching, I try
Ignoring my remains

Saying Goodbye
When there's God so near
With him I try
To eradicate fear

Saying Goodbye
Can be a healing thing
While praying, I try
For Gods love to bring

Saying Goodbye
Remember our times
No more can I cry
While the church bell chimes

Saying Goodbye
Has saved me, my soul
No more can I lie
Myself I console

Saying Goodbye
Brings great peace within
With God, I try
To reveal, heal my sin

Saying Goodbye
As the teardrops they fall
Feeling I'll die
Unless for God I call

Saying Goodbye
Watch you walk for awhile
Head turned I sigh
To Gods' angels I smile
